milburnflooring.com

SAFE & SUSTAINABLE

Textured floors can be adjusted to meet the needs of specific spaces while eliminating the use of harmful chemicals and supporting LEED and other sustainable building programs

EASY CLEANING & MAINTENANCE

Flooring solutions with a minimal maintenance regimen last longer and perform better over time than alternative sheet style or synthetic tile options

CHEMICAL RESISTANCE

Seamless flooring designed to stand up to harsh cleaning compounds and common chemicals/fluids found in healthcare facilities

SHEET VINYL SEAMLESS FLOORING SYSTEMS

Sheet vinyl flooring offers a minimal number of seams and this is a key factor in healthcare facilities or places that demand sanitary and sterile spaces. This product is easy to clean and maintain leaving no space to harbor bacteria or germs. Sheet vinyl can also be flash coated, another ideal product feature in the medical environment. This product can also withstand heavy traffic while not sacrificing aesthetics.
